- PROFESSIONAL EXPERIENCE

EKYC Solutions Co., Ltd. | Front-end Developer

February 2025 – Present

 - **Core Projects:** Developed and maintaining Lifestyle dashboards, architected and deployed EKYC admin/console platform.
 - **Technical Strategy:** Managed complex monorepo environments using TypeScript, Nuxt.js, and Next.js to enforce code quality and modularity.
 - **Product Delivery:** Collaborated on Flutter-based mobile applications to drive cross-platform product rapid feature iteration.

Anakut Digital | Web Developer

April 2024 – July 2025

 - **Full-Stack Development:** Engineered web solutions using Nuxt.js, Node.js, and Express.
 - **System Architecture & Design:** Translated complex UX/UI specifications from existing systems into modern, intuitive interfaces for new product builds.

BLOC Delivery & Online Mall | Front-end Developer

March 2022 – April 2024

 - **Front-End Development:** Developed the front-end for the BLOC ecosystem, utilizing React.js, Next.js, Flutter, and React Native to build high-performance web portals and cross-platform mobile applications.
 - **Diverse Platform Development:** Executed the technical implementation for a wide range of external client projects, including e-commerce platforms, merchant dashboards, and social media applications.

EDUCATION

Build Bright University | 2018–2023

Bachelor of Computer Science

Sihanouk Ville High School | 2016–2018

High School Diploma

TECHNICAL SKILL

Web Frameworks & Libraries: Next.js, React.js, Nuxt.js, Vue.js, Node.js, Express.js, Nest.js, Spring Boot, Laravel, FastAPI

Mobile Development: Flutter (BLoC pattern), React Native

Languages: HTML, CSS, TypeScript, JavaScript, Dart, Java, PHP, Python

Databases & Backend Services: PostgreSQL, MySQL, SQLite, Redis, Firebase, Supabase, Appwrite, PocketBase

Infrastructure & Architecture: Monorepo Architecture, Docker, Ubuntu, Nginx, Apache, RESTful API Integration

Developer Tools: GitHub, GitLab, VS Code, Android Studio, DBeaver, Figma, Postman, Bruno, Hoppscotch, AI-Assisted Development (Codex CLI, Antigravity CLI)

PROJECT

Business Management & Enterprise Solutions:

- **Lifestyle Dashboard (KFK & Lucky Burger):** Developed a centralized monorepo infrastructure using Nuxt Layer to unify and scale management dashboards. Developed interactive browser game for both clients.
- **EKYC Console:** Developed a client-facing platform for self-service API key management, monitoring usage limits, and billing integration.
- **EKYC Admin:** Architected the internal company administration portal for oversight, organization & project monitoring, billing management.
- **Bloc Merchant:** Developed the web administration portal to support the Bloc Delivery merchant ecosystem.
- **MKS System (Mungkul Serey Catering):** Architected a catering management system to optimize catering operations (Thesis Defense).
- **Tenglay System:** Built a specialized document management system for Tenglay Dryport logistics.
- **KH POS:** Engineered a responsive, mobile-first Point-of-Sale (POS) system for retail efficiency.

Consumer & E-Commerce Ecosystems:

- **Bloc Delivery:** Engineered a comprehensive food delivery and online mall platform.
- **Dogenote:** Developed a social media-integrated e-commerce mobile application.
- **Thortok (Digital Asset Marketplace):** Engineered the contributor-facing dashboard for a large-scale digital asset platform, enabling creators to manage, upload, and track the performance of their digital inventory.
- **Fruit Daily & More Plus:** Built dedicated e-commerce mobile solutions to streamline online sales for retail clients.
- **Workingna:** Delivered a cross-platform online job portal across both web and mobile.

Corporate & Digital Portfolio:

- **Digital One Portfolio:** Designed and deployed a professional corporate portfolio website to showcase company services and project capabilities.
- **Anakut Digital Portfolio:** Build a comprehensive corporate showcase featuring 20 unique product pages, each detailing distinct software solutions. Utilized Odoo Web Builder.
